ABSTRACT

This booklet contains 14 series of data tables providing comprehensive information on enrollments in the Virginia Community College System (VCCS) for fall quarter, 1978. Within the tables data are provided on student enrollments by race; sex; full-/part-time status; type of program; type of award; first-time/continuing student status; credit hours taken; major curriculum area; curriculum; residence; course prefix; year of birth; and age. Enrollment figures are computed in terms of credit hours, headcount, and full-time equivalency. Highlights of the data include the following: (1) a headcount total of 88,681 students were attending the VCCS's 23 colleges in fall 1978, representing a 5.7% increase over fall 1977; (2) the proportion of part-time students increased from 53% in 1972 to 70% in 1978; (3) the proportion of women students increased from 40% in 1972 to 54% in 1978; (4) the proportion of black students increased from 9% in 1972 to 14% in 1978; (5) in fall 1978, 4% of the students were enrolled in developmental programs, 52% were unclassified, 31% were in occupational programs, and 13% were in transfer programs; (6) the ratio of full-time equivalents to headcount decreased from .68 in 1972 to .52 in 1978; and (7) 77% of the students enrolled in 1978 were between the ages of 18 and 34, with the median age being 25. MEMORANDUM

TO: Dr. Dana B. Hamel
Deputy Chancellors

FROM: John Harris

DATE: November 16, 1978

SUBJECT: VCCS Enrollment Trends (Fall Quarter Data)

In the fall of 1977, I sent you a memo indicating certain enrollment trends. This memo is an update of the 1977 data. The enrollment trends for the last six years (1972-1978) are noted for your information:

1) The proportion of women students has increased from 40 percent in 1972 to 54 percent in 1978. This represents a growth in actual numbers from 16,748 to 54,306 or a growth of 224 percent. The percentage of women students for each of the years is as follows:

1972	1973	1974	1975	1976	1977	1978
40	43	46	46	50	53	54

2) The proportion of part-time students has increased from 53 percent in 1972 to 70 percent in 1978. This represents a growth in actual numbers from 22,292 to 69,983 or a growth of 214 percent. The percentage of part-time students for each of the years is as follows:

1972	1973	1974	1975	1976	1977	1978
53	57	62	63	65	67	70

3) The proportion of black students has increased from 9 percent in 1972 to 14 percent in 1978. This represents a growth in actual numbers from 3,827 to 13,922 or a growth of 264 percent. The percentage of black students for each of the years is as follows:

1972	1973	1974	1975	1976	1977	1978
9	11	12	14	14	15	14

4) The proportion of students by program type is as follows:

	1972	1978
Developmental	8	4
Unclassified	42	52
Occupational-Technical	29	31
College Transfer	21	13

5) The proportion of students by first-time, transfer, and returning is as follows:

	1972	1978
First-time	42	37
Transfer	9	5
Returning	49	58

6) The ratio of FTES to headcount has decreased from .68 in 1972 to .52 in 1978. The ratio for each of the years is as follows:

1972	1973	1974	1975	1976	1977	1978
.68	.64	.59	.59	.57	.55	.52

This trend is probably caused by (1) a higher proportion of part-time students and (2) students carrying lighter credit hour loads. It should be noted that 42,940 (43%) of our enrollment in Fall 1978 carried a credit load of less than six hours.

7) For the first time in the Fall Quarter 1977 complete age data on students were available. The distribution of students by age groups is as follows:

	1977		1978	
	N	%	N	%
Under 18	2,229	3	1,540	2
18-21	29,494	31	29,870	30
22-24	13,478	14	14,431	14
25-34	30,385	32	32,483	33
35-44	11,381	12	13,065	13
45-59	6,646	7	7,422	7
60 and over	693	1	870	1
	94,306	100	99,681	100

The median age of our students for Fall 1977 was 25 years old and it remains the same for Fall 1978.

Please advise if additional clarification is required.

INTRODUCTION

This booklet contains comprehensive information on enrollment for each of the Virginia community colleges and the Virginia Community College System for the fall quarter, 1978. The purpose of the booklet is to provide a reference for all VCCS staff members and others interested in Virginia community colleges. Enrollment data were first made available in the fall quarter, 1972. The booklet may be used to review and compare enrollment characteristics and to analyze data for trends.

There are fourteen sets of tables in the booklet, each of which contains a separate analysis of fall 1978 enrollments. The data are presented by full-time and part-time status; freshman and sophomore; sex; race; program type; curriculum; first-time, transfer, or returning; day or evening; in-state or out-of-state residence; headcount and full-time equivalent students; and on-campus or off-campus location. Tables 1D, 3G through 3R, 12A and 12B, 13, and 14 are new.

Additional copies of this publication may be obtained from John Harris in the Institutional Studies and Reports Office.
